Consumers generally have fourteen days to withdraw. Activating a key alone does not end that right; the statutory early-supply declarations and contract confirmation are also required.

Porn Fetch Premium unlocks available qualities above 720p, parallel downloads and full public profiles, models, channels and playlists on up to ten active installations. Your perpetual Premium license never expires. Every future Porn Fetch update and feature I release is included, without another license payment. Future development has no guaranteed duration. This grants a software license; copyright and source-license conditions still apply. App updates and desktop download history and statistics are free. The license does not renew automatically.
Direct price: EUR 29.99; no separately charged VAT under the small-business tax exemption. Payment providers disclose any additional provider, network and conversion fees before payment. A direct license contract begins on successful payment, not when you open checkout. Banxa sells cryptocurrency separately to fund the license payment.
Your signed license file is provided without undue delay after payment verification. You need a compatible operating-system/processor build, internet access for downloads, activation and periodic license checks, and sufficient storage. Initial offline grace is three days; after validation, offline permits last seven days. Deactivate an installation in the app before exceeding ten slots.
If I permanently close the licensing service, I will provide an offline unlock before closure so existing buyers can continue using Premium. Third-party websites and operating-system compatibility can change; lifetime entitlement does not guarantee that every integration will work indefinitely. Statutory conformity and update rights remain unaffected.
Patreon Shop is a one-time purchase and requires a free Patreon account. Patreon displays the final price, fees and taxes before purchase. After buying, return to Porn Fetch and enter the email address associated with your Patreon purchase at Get your Patreon license. Use your purchase email and Patreon order ID to view your license in the browser, or request email delivery. Allow up to 10 minutes and check your Spam folder for email delivery.
Features and requirements
Porn Fetch 3.9 downloads supported URLs to your device. Features vary between desktop, Android and CLI; source code alone does not promise a ready-to-run build. Free use offers up to 720p, one active download and the first five videos of public profiles, models, channels and playlists, before filters/ranges. Account collections are exempt. Android has no download history or statistics. MP4-only YouPorn videos with unknown resolution may require Premium.
Video integrations: PornHub, Eporner, XNXX, XVideos, XHamster, SpankBang, YouPorn, Beeg, Porntrex, XFreeHD, RedTube, Thumbzilla, Tube8, EMPFlix and TNAFlix. Profiles/channels are supported except on Beeg and XFreeHD; profile types vary. Collections: PornHub, XVideos, YouPorn, RedTube, Thumbzilla and your XHamster account. Account features: PornHub, XVideos and XHamster. Shorts: PornHub and XHamster. PornHub/XFreeHD photo albums are CLI-only.
No keyword search, HQporner/MissAV/unlisted integrations, third-party subscriptions, content rights, deleted or inaccessible videos are included. Supply any required accounts and permissions. Available quality depends on the source; no particular speed or success with every URL is guaranteed. Porn Fetch supplies software, not video content.

Terms
Effective 8 November 2026. You must be 18 or older. These terms govern purchases and related services when

accepted. Contracts are concluded in English; English is authoritative and translations are for convenience. Mandatory consumer protections remain unaffected.

Software and permitted use

The copyright license supplied with your software governs that copy. Earlier GPL copies and independently licensed components retain their rights. Releases marked Porn Fetch Source-Available License 1.0 permit source inspection, modification and private sharing with individual family members and real-life personal friends you have met in person, including modified copies. A shared online community or server membership alone does not qualify. You may privately share your own Premium credential within that circle, with ten active installations in total. Public forks must retain effective Premium checks and required notices; recipients outside that private circle need their own Premium entitlement. You agree not to publish targeted instructions or patches primarily intended to disable Premium checks. This does not restrict independent discussion, criticism, security research or mandatory rights.

Use the software lawfully, respect third-party rights and applicable platform terms, and obtain required permissions. Porn Fetch is independent of the supported platforms.

Lifetime Premium

Premium costs EUR 29.99 once and grants a perpetual license for up to ten active installations. Every future Porn Fetch update and feature I release is included without another license payment. Future development has no guaranteed duration. Ending development does not end your license. Activation and periodic online validation are required; if I permanently close the licensing service, I will provide an offline unlock before closure so existing buyers can continue using Premium.

Updates, problems and refunds

Third-party changes, CAPTCHA, access restrictions and removed content can interrupt integrations. No extra uninterrupted-availability guarantee is given. Agreed functionality, statutory conformity rights and required updates remain owed without another license purchase. Other statutory defect rights remain unaffected.

Where cure is owed, it will be provided within a reasonable time after notification, free of charge and without significant inconvenience; the next release is not a blanket waiting period. Unlawful circumvention is not owed. If cure is impossible, disproportionate or unsuccessful, statutory further remedies apply. A minor defect may permit reduction but not termination. These notices do not establish a separate agreement to reduced product requirements (§ 327h BGB). Changes to continuously supplied products remain subject to § 327r BGB.

Report delivery problems, defects or refund requests to support@echteralsfake.me with your order reference and a description. Statutory remedies, including supply, cure, price reduction, termination and reimbursement where applicable, remain available. Additional goodwill refunds are considered individually; no voluntary anytime return right is offered. Historical beta-only purchases retain their original terms; lifetime Premium licenses are not deleted at release.

Withdrawal

Consumers generally have 14 days to withdraw. For paid digital content, the right ends when supply starts after your express consent to early supply and acknowledgment of the resulting loss of that right, provided the required contract confirmation is supplied (§ 356(6) BGB). For a Patreon Shop purchase, the required declarations and confirmation must also be established. See the withdrawal instructions for details.

Liability and applicable law

Liability is unlimited for intent, gross negligence, injury to life, body or health, fraud, express guarantees and mandatory liability, including the Product Liability Act. Otherwise, liability for simple negligence is limited to typical, foreseeable loss from breach of essential contractual duties; it is excluded for other duties. Essential duties enable performance of the contract and may ordinarily be relied upon. These limits do not restrict statutory remedies for defects.

German law applies, excluding CISG, without depriving consumers of mandatory protections in their country of habitual residence. For merchants, exclusive jurisdiction is Lutherstadt Wittenberg. Invalid terms are replaced by statutory law under § 306 BGB.

Refund method

With your separate express consent, license refunds for NOWPayments and Banxa-funded purchases are paid in cryptocurrency. Patreon payments are refunded through Patreon to the original payment method within 90 days of payment; afterwards, cryptocurrency is agreed. This changes no statutory entitlement, amount or deadline, and does not reverse Banxa's separate cryptocurrency sale or restrict payment-provider disputes.

Before transfer, I agree with you on the currency, network and your receiving address, preferably using the original currency/network. For fiat-denominated claims, the full amount owed is converted at an agreed, documented current rate. I bear necessary network, receipt and conversion costs. If this cannot be completed on time without extra cost to

you, the original payment method or another expressly agreed cost-free method is used; deadlines are unchanged. Website consent is not automatically linked to Patreon. Without attributable consent, any alternative method is agreed individually. Prior refunds and payment disputes are checked to avoid duplicate payouts.

Withdrawal instructions

You may withdraw within 14 days of concluding the contract without giving a reason. Notify Johannes Habel, Bahnstr. 21, 06886 Lutherstadt Wittenberg, Germany; phone +49 1744646064; email support@echteralsfake.me, by an unequivocal statement, such as an email or letter. Sending it before the deadline is sufficient. The model form below is optional.

You may also use https://pornfetch.to/withdrawal. I will promptly email a receipt containing your declaration and its receipt date and time.

Effects

If you validly withdraw, all payments received from you will be refunded without undue delay and within 14 days of receiving your notice, using the original payment method unless you expressly agree otherwise, at no cost to you.

Immediate digital supply

For paid digital content supplied without a physical medium, the right expires when supply starts after your express consent to supply before the withdrawal period ends and acknowledgment of the resulting loss of that right, provided the confirmation required by § 312f BGB has been supplied (§ 356(6) BGB). Payment alone is insufficient. For a Patreon Shop purchase, the required declarations and confirmation must also be established. Statutory remedies for defects remain unaffected.

Model withdrawal form

Complete and return only if you wish to withdraw.
